Do you meet with Demita today? Amandeep was to get proposal to TCEQ today.

I am currently working with Amandeep on setting up Veolia procurements for the waste under our existing profiles. When that is complete, I will work on Dynamic Rental and Adler. Amandeep will need to add both Dynamic and Adler as a vendor, if they are not already on TCEQs list. They have been working on Clean Harbor and I meet with Demita and the commercial sales representative from Lonestar on the Hazard Mitigation Plan for FT 1004.

Subject: CES: TCEQ Activities

Leroy:

I think you may have already talked to Amandeep about this but in case you have not, we need to do so.

As of now, it is my understanding that TCEQ will be handling FT1004 On-Site Treatment and Disposal at Lonestar. Additionally, they will be handling disposal of ST1 and ST6 (at Clean Harbors?). My plan is to have them handle the haz stuff from the vacuum boxes as well.

I would also like to make sure that we transfer the rental on any vacuum boxes where TCEQ will be handling the disposal. We just need to transfer the rental to them at the appropriate time (we can discuss this). Therefore, I think that Amandeep would need to get both Dynamic and Adler on their vendor list immediately and include these costs in their proposal to the TCEQ. The boxes shipped for incineration should include cleaning so the boxes can go straight back to Dynamic from Veolia.

Thanks
